MicroPSC

Self-Contained Microperforated Acoustic System

Inova Hospital
Fairfax, Virginia
RealAcoustix MicroP

MicroPSC system with front and back view

The RealAcoustix MicroPSC system is RA's answer to the need for a self-contained, easy to hang consistent and cost-effective microperforated product. Utilizing multi-core material layers with custom and attractive perforated veneer faces, the MicroPSC installs easily and provides the absorption performance with architectural elegance everyone is looking for.

MicroPSC is available in sizes up to 48" wide x 120" long. Our design team can work with you to affect the look and feel that you want and the performance you need. Microperforated sizes of both .55mm and 1mm are available in a multitude of veneer species and laminates.

Please note that all performance specifications for MDF-backed microperforated products include mounting with battens and insulation behind the panels. Typical mounting is Z-clip/Z-bar.

ASTM E84 Class "A" fire-rated NRC: .80 (1" insulation) .90 (2" insulation)
